The dates of the vaccinations carried out for your child as part of the Wallonia-Brussels Federation's vaccination programme, as well as your child's personal data, will be stored in a vaccines database, unless you object to this. The aim of this storage is to avoid losing vaccination data and to allow your child's other vaccinating physicians to know which vaccinations they have already had. The Data Protection Authority has given its approval for the establishment of this vaccines database. If you object to the vaccination being recorded in the database, your decision will have no influence on the medical care provided.

Furthermore, all personal and confidential data that concerns your child is protected by professional secrecy (Article 458 of the Belgian Penal Code); the provisions of the Belgian law of 30 July 2018 on the protection of natural persons with regard to the processing of personal data; the law of 22 August 2002 on patients' rights; Regulation (EU) 2016/679 of the European Parliament and of the Council of 27 April 2016 on the protection of natural persons with regard to the processing of personal data and on the free movement of such data (General Data Protection Regulation). You have the right to access, rectify or remove data that concerns you at any time. Any questions regarding the exercise of the above-mentioned rights can be sent to ONE by email:
